

The Central Platte Natural Resources District's board of directors agreed to investigate the possibility of entering into a Joint Action Agency to help develop a plan for a Central City/Marquette Hike and Bike Trail. Over 60 landowners were present at the board meeting, a majority there to show their support of the proposed trail.

Staff and directors will work with the cities of Central City and Marquette, and potentially others, to put a plan together regarding an agreement for a Joint Action Agency outlining how ISTEA funding, maintenance, etc. would be handled. The vote was taken at the regularly scheduled board meeting on Thursday, July 23, 2009.
