

CENTRAL PLATTE NRD SURGE VALVE COST SHARE PROGRAM

Revised (4-12-06)

The purpose of a surge valve is to save you water, time, labor, and money while reducing runoff, giving better irrigation uniformity. With increased irrigation uniformity, nutrient leaching into groundwater can be reduced thereby providing water quality benefits.

This application will not be effective until approved by the NRD. Claims for payment will not be accepted more than five months from the date this application is approved. Claims for payment submitted but being held subject to compliance with all rules and regulations of the Central Platte NRD programs shall be held only up to 90 days, the claim for payment shall be considered void and the original application cancelled. Items of cost for which reimbursement is claimed are to be supported by documentation of payments made or due. \$900.00 maximum on surge valve and 660 foot maximum length on pipe with one system per landowner per year. Cost share rate on a valve is 50% of actual cost and pipe is 50% of actual cost or 50% of county average cost, whichever is less.
