

# CENTRAL PLATTE NRD TREE PLANTING COST SHARE PROGRAM

Revised (4-12-06)

The purpose of tree planting is to reduce soil erosion from wind, to protect plants from wind related damage, to alter the microenvironment for enhancing plant growth (reduced evapotranspiration), to manage snow deposition, to provide shelter for structures, livestock, and recreational areas, to enhance wildlife habitat (by providing travel corridors, winter cover, food, or other benefits), to provide living noise screens, to provide living visual screens, to provide living windbreaks against airborne chemical drift, to delineate property and field boundaries, to improve irrigation efficiency, to enhance aesthetics, and to increase carbon storage.

**This application will not be effective until approved by the NRD.** Claims for payment will not be accepted more than nine months from the date this application is approved. Claims for payment submitted but being held subject to compliance with all rules and regulations of the Central Platte NRD programs shall be held only up to 90 days. After 90 days, the claim for payment shall be considered void and the original application cancelled. Items of cost for which reimbursement is claimed are to be supported by documentation of payments made. Cost share is 50% of actual cost or 50% of county average costs, whichever is less, up to a maximum of \$3000. Tree plantings must be planned and installed in accordance with technical specifications of the Natural Resources Conservation Service.
