

EXPEDITED SUPPLEMENTAL WATER WELL PERMIT APPLICATION

This application is for a permit to construct a supplemental irrigation water well within the Central Platte Natural Resources District Groundwater Management Area

THIS APPLICATION WILL BE RETURNED IF NOT TOTALLY COMPLETED

Well Driller: _____
 Address: _____

 Telephone: _____

NRD USE ONLY

PERMIT # CPSG _____
 REG # _____

1. Name _____
 Address _____

 Telephone (_____) _____

The box below represents one square mile (section).
Indicate with an "X" the proposed location of the well.
Indicate the location of the lands to be irrigated.

2. Specifications of Intended Well and Pump:
 _____ Approximate date construction will begin.
 Pump column diameter: _____ inches
 Estimated total well depth: _____ feet.
 Estimated pumping capacity: _____ gallons per minute
 Well casing diameter: _____ inches.
 In what formation will screen be placed:
 _____ Upper _____ Lower _____ Both
 Expected well log, if known.
 Provide a copy of test drilling report, if available.

The well will be located _____ feet from the _____ (North/South) section line and _____ feet from the _____ (East/West) section line.

3. Identify Location of Proposed Well:
 County _____ Township _____ North,
 Range _____ West, Section _____
 GPS Reading: (If available)
 Latitude _____
 Longitude _____

4. How many acres will be irrigated? _____
5. Was all this land previously irrigated?
 _____ Yes _____ No
 If yes, with: _____ groundwater _____ surface water
6. Are you increasing or decreasing (circle one) the irrigated acres?
 How many acres? _____

****SEE PERMIT RESTRICTIONS ON BACK****

I certify that I am familiar with the information in this application, and that to the best of my knowledge and belief such information is true, complete and accurate.

Date _____ Signature of Applicant _____
 Date Approved _____ Signature of NRD Representative _____

ENCLOSE: \$50.00 FILING FEE

Expedited Supplemental Well Permit: This permit is approved with the understanding that the landowner will agree and abide by the following condition:

1. This water well will be used to supplement irrigation wells that irrigate lands already irrigated with groundwater and that the irrigated acres will not exceed the acres currently irrigated.

The Rules and Regulations of the Temporary Suspension of Groundwater Wells and the above Conditional Use Permit will be enforced by the District through the use of cease and desist orders issued in Accordance with the Rules and Regulations for the enforcement of the Groundwater Management Plan adopted July 23, 1987 and subsequently amended. In accordance with Neb. Rev. Stat § 46-656.10 (cum.supp. 2003), any person who violates a cease and desist order issued by the district shall be subject to a civil penalty of not less than one thousand dollars and not more than five thousand dollars for each day an intentional violation occurs.

I have read and understand that in order to obtain this well permit, drill the supplemental well, and use the supplemental well, I must comply with Central Platte Natural Resources District's Rules and Regulations of the Temporary Suspension of Groundwater Wells, which includes the condition stated above.

Landowner Signature

NRD Representative

This Permit is not a Variance to expand irrigated acres. No new irrigated acres are allowed in the Central Platte Natural Resources District (District) without offsetting other irrigated acres and getting an approved Variance from the District.

**Required Information for
Expedited Supplemental Irrigation Wells
Within the
Central Platte Natural Resources District's
Suspension of Well Drilling Areas**

This is only for new wells used to irrigate land previously irrigated with groundwater and is not intended to be used to add any newly irrigated acres.

Please provide the following:

- ✓ **You will need to complete a Water Well Permit Application provided by the Central Platte NRD and pay a fee of \$50.00 (non-refundable).**
- ✓ **You will need to provide information that the land you are proposing to irrigate with the well was all irrigated in 2003 or before. This will require a **crop certification aerial photo from the Farm Service Agency (FSA) showing the acres of irrigated and/or non-irrigated cropland and the crop grown**, or County Tax records if you are not in the Farm Program.**
- ✓ **You will need to provide information on wells used to irrigate this land. This information could include registration with the Department of Natural Resources (location & owner). This information is available online at dnr.state.ne.us or at the CPNRD.**
- ✓ **Other information that may be requested by the NRD.**

Central Platte Natural Resources District

Forward this application and the \$50.00 (non-refundable) filing fee to:
Central Platte Natural Resources District 215 N Kaufman Avenue Grand Island NE 68803

Please take the time to fill out the information correctly. The District will return an incomplete or inaccurate application, with 60 days being allowed to return the application. The District shall issue all permits with conditions attached or denied no later than 30 days after receipt of a complete and properly prepared application.

PERMIT RESTRICTIONS

1. A well permit is required prior to construction. The District must approve the permit application prior to starting any well construction activities.
2. If the well authorized by this permit is for irrigation, the well may not be constructed closer than 600 feet from another landowner's existing registered irrigation well, unless a special spacing permit (Neb. Rev. Stat. § 46-610) has been granted from the Department of Natural Resources. No irrigation well may be constructed closer than 1,000 feet from an existing industrial or municipal well and no industrial or municipal well may be constructed within 1,000 feet of any other existing well, unless a special spacing permit (Neb. Rev. Stat. § 46-653) has been granted from the Department of Natural Resources or if they are owned by the same individual.
3. If it is later determined that offsets have to be made because of any depletions to the river caused by the well that was put in under the variance, whatever offsets have to be made will be the well owner's responsibility to make.
4. This permit does not register the well with the Department of Natural Resources. All wells are required to be registered with the State Department of Natural Resources within 60 days after the well is completed.
5. If the well is not constructed within a one-year period from the date of approval, a new permit is needed.
6. According to Neb. Rev. Stat. § 46-637, water wells may not be drilled within 50 feet of a stream bank without first getting a surface water right for that stream from the Department of Natural Resources.
7. Any person who, on or after August 30, 1981, commences or causes construction of such a well for which the required permit has not been obtained, or who knowingly furnishes false information regarding such permit, shall be guilty of Class IV misdemeanor. (Neb. Rev. Stat. § 46-602.01)
8. Permits are not required for test holes, temporary dewatering wells (less than 90 days), or wells designed to pump 50 gallons per minute or less. *If possible mark (with a flag) the well site in the field.*

COMMENTS/RESTRICTIONS:
