

Could your students be the next **NEBRASKA ENVIROTHON** champions?

Dear Principals, Teachers, and Advisors,

The Nebraska Envirothon is an exciting, hands-on competition for high school students in grades 9–12. More than a competition, it gives students the opportunity to test their knowledge, work as a team, solve real-world environmental challenges, and explore careers in natural resources and environmental science.

Form a Five-Member Team

We invite you to form a five-member team from your school.

At the regional competition, students test their knowledge in these environmental study areas:

- Soils
- Aquatics
- Forestry
- Wildlife
- Range
- Current Environmental Issue: *Soil Health Management: Agricultural Principles & Stewardship*

Teams advancing to the state competition also prepare and deliver an oral presentation on a topic selected by the National Conservation Foundation Envirothon Committee.

Choose a Regional Contest

Teams may compete at any regional Envirothon contest in Nebraska, but each team may participate in only one regional contest per year.

Central Region Envirothon

January 21, 2027: Central Community College, Columbus, Nebraska

Nebraska State Envirothon

April 28, 2027: Calamus Outfitters, Burwell, Nebraska

National Conservation Foundation Envirothon

July 24–30, 2027: Emmitsburg, Maryland

To learn more visit:
www.nrdnet.org/envirothon

The Nebraska State Envirothon champions advance to the national competition, where more than 50 teams from the United States, Canada, China, Singapore, and the U.S. Virgin Islands compete for up to \$15,000 in scholarships.

If you have students who enjoy science, agriculture, the outdoors, or a good challenge, please consider forming a team. We would be glad to provide additional information and help you get started.
