

CENTRAL PLATTE NRD REVERSE OSMOSIS SYSTEM COST SHARE PROGRAM

The purpose of the Reverse Osmosis System is to strip away up to 99% of dissolved salts, heavy metals (like lead, arsenic and nitrogen) and chemical pollutants.

Cost share on a reverse osmosis system is 50% of the actual cost up to \$750.00 maximum with a limit of one system per landowner per home.

A nitrate test must be done prior to being eligible for cost share and the well must be registered with the State. A copy of the test and registration must be attached.

Use Central Platte NRD Reverse Osmosis System Cost Share Application Forms. Application must be in the name of the landowner with corresponding social security number or tax ID number.

Applications for cost share are not effective until approved by the NRD Board of Directors. After approved the landowner will be notified by the NRD concerning approval. ***Applications must be approved before project can be started.***

Claims for payment will not be accepted more than five months from the date the application is approved. There are no extensions.

Items of cost for which reimbursement is claimed must be supported by documentation of payments made. *Sales tax is to be included for cost share.*

The landowner must agree that if the installed reverse osmosis system is removed or not maintained for a period of five years after the date of receiving payment, that portion of the claimed amount shall be refunded to the Central Platte Natural Resources District.

US Citizenship must accompany application.
