

## **CENTRAL PLATTE NRD CHEMIGATION INCENTIVE COST SHARE PROGRAM**

### **Purpose of Cost Share Practice:**

*To increase the number of producers using chemigation as a fertilizer application method.*

Cost share is 50% of the actual cost up to \$3500.00 per location(field) – 2 max. Eligible items: chemical injection pump, interlock, injection valve, mainline check valve, low pressure drains and discharge hose.

**Landowners must also be enrolled in the Sensor Based Nutrient Management Program to be eligible for this program.**

Each landowner is eligible to sign-up two fields (320 acres max). \$7,000 lifetime max.

Use Central Platte NRD Chemigation Incentive Cost Share Application Forms. Application must be in the name of the landowner with corresponding social security number or tax ID number. NRCS certification is required.

Applications for cost share are not effective until approved by the NRD Board of Directors. After approved the landowner will be notified by NRD concerning approval. ***Applications must be approved before project can be started.***

Claims for payment will not be accepted more than five months from the date the application is approved. There are no extensions.

Items of cost for which reimbursement is claimed must be supported by documentation of payments made. *Sales tax is to be included for cost share.*

The landowner must agree that if the chemigation system is removed or not maintained for a period of three years after the date of receiving payment, that portion of the claimed amount shall be refunded to the Central Platte Natural Resources District.

US Citizenship must accompany application.
